TOGETHER WE CAN DO IT 100% ORGANIC

We believe in the power of organic farming to nurture ecosystems, preserve soil fertility, and support resilient communities, while producing food with respect for nature. Guided by the four principles of organic agriculture - Care, Health, Ecology, and Fairness - we work together with farmers, producers, retailers, and consumers to accelerate the transition to organic. That's why 100% organic is our standard.

- Over 160 unique food ingredients, including seeds, nuts, pulses, oils, rice and cocoa
- Custom private label packaging
- Consumer products for retail

For over 35 years, we have built global partnerships with farmers and producers, fostering long-term relationships at origin. Committed to sustainable, traceable, and responsible sourcing, we continuously strive to improve. For example, we collaborate with cocoa cooperatives in Peru and work side by side on an organic coconut sugar project in Indonesia, alongside many other global initiatives.

DID YOU KNOW:

- We work together with a worldwide network of 180 suppliers in more than 60 countries.
- We naturally protect our organic ingredients in 12 advanced EcO_2 chambers, using a precise balance of gases to eliminate insects - without chemicals or irradiation.

WE ARE PROUD TO BE:

SUGARS & SWEETENERS

Our organic sugars and sweeteners portfolio offers a carefully selected range of cane sugar, coconut sugar, syrups, honey, glucose and functional carbohydrate ingredients. Sourced from trusted organic suppliers worldwide, these ingredients support a broad variety of applications, including bakery, confectionery, beverages, breakfast products, dairy alternatives and sports nutrition.

With options ranging from neutral sweeteners and refined textures to distinctive caramel, floral and malty flavour profiles, we help customers meet the growing demand for organic and high-quality sweetening solutions.

20210	Cane sugar unrefined (Panela)	EC
21220	Cane sugar white	TH
21244	Coconut sugar 14-16 mesh	ID
21240	Coconut sugar 14-16 mesh (gluten-free)	ID
21112	Powder sugar cane	BR
16152	Agave syrup	MX
16154	Agave syrup Blue Weber	MX

Article nr.	Product	Origin
16153	Agave syrup Salmeana	MX
16060	Barley malt syrup	EU
16032	Corn syrup DE62	EU
16181	Maple syrup	CA
16080	Rice syrup	ES, IN, IT, PK
16111	Tapioca syrup DE69	KH, VN
16110 16113	Wheat syrup DE69	EU
16144	Corn glucose powder DE97	CN
20160	Honey melange	EU/NON-EU
16141	Tapioca maltodextrine DE10	VN
16147	Dextrose monohydrate	CN

SUGARS

✓ **ORGANIC**
✓ **MULTIPLE VARIETIES**
✓ **VERSATILE FUNCTIONALITY**

Our organic sugar range offers solutions for a wide variety of food and beverage applications, from bakery and confectionery to cereals, beverages and nutritional products. Whether your formulation requires a clean, neutral sweetness or a richer flavour profile with caramel notes, our portfolio includes carefully selected sugar varieties to match different processing and product requirements.

Varieties: Cane sugar (Demarara, unrefined Panela, light golden, white), coconut sugar 14-16 mesh (gluten-free), powder cane sugar

Packing: Big bag, bag-in-box, multi-layer paper bag

Origin: Brazil, Colombia, Ecuador, India, Indonesia, Thailand

Harvest: November – December

21032	Cane sugar (Demarara)	25 kg	CO
21010	Cane sugar light golden	25 kg	CO
21302	Cane sugar light golden	1000 kg	CO
21312	Cane sugar light golden	25 kg	BR
21304	Cane sugar light golden	1000 kg	BR
20210	Cane sugar unrefined (Panela)	25 kg	EC
21220	Cane sugar white	25 kg	TH
21244	Coconut sugar 14-16 mesh	25 kg	ID
21240	Coconut sugar 14-16 mesh (gluten-free)	25 kg	ID
21112	Powder sugar cane	10 kg	BR

PLANTING DWARF COCONUT TREES

Together with our local partners in Java, Indonesia, we are planting 3,500 dwarf coconut palm trees. Unlike traditional coconut palms, these trees remain much lower in height, making it safer and less physically demanding to harvest the organic coconut sap used to produce coconut sugar. As a result, the work becomes more accessible for women and younger generations, helping to keep coconut sugar production an attractive source of income and ensuring that local knowledge and craftsmanship can be passed on to future generations.

TAP FOR THE SAP

Maple syrup harvesting in Canada is a true art. The process begins only under the right conditions: freezing nights followed by mild days, when the sap starts to flow. With great care and precision, a spile is gently inserted into the maple tree, guiding the sap through a network of tubes. Once collected, the sap is slowly heated to evaporate the water, leaving behind the golden syrup known for its naturally concentrated sugars and deep, robust flavour.

SYRUPS

- ✓ **ORGANIC**
- ✓ **CLEAN-LABEL SWEETENER**
- ✓ **FLORAL FLAVOUR**

Our organic syrup portfolio offers a versatile range of natural liquid sweeteners. From neutral tasting options to syrups with distinctive flavour notes, they provide sweetness, texture and functionality for a broad range of food and beverage formulations.

Varieties: Agave, barley malt, corn, maple, rice, tapioca, wheat

Packing: IBC, 25kg bucket

Origin: EU / NON-EU

16152	Agave syrup	25 kg	MX
16154	Agave syrup Blue Weber	1380 kg	MX
16153	Agave syrup Salmeana	1380 kg	MX
16060	Barley malt syrup	25 kg	EU
16032	Corn syrup DE62	25 kg	EU
16181	Maple syrup	25 kg	CA
16080	Rice syrup	25 kg	ES, IN, IT,PK
16111	Tapioca syrup DE69	25 kg	KH, VN
16110	Wheat syrup DE69	25 kg	EU
16113	Wheat syrup DE69	1400 kg	EU

GLUCOSE POWDER

✓ **ORGANIC**
✓ **VERSATILE SWEETENER**
✓ **IMPROVES TEXTURE**

Our organic glucose powder, derived from corn, is a versatile sweetening ingredient that provides rapid energy and excellent functionality. It helps enhance sweetness, improve texture and support consistent processing performance.

Typical applications include sports nutrition, beverage powders, confectionery, bakery products, nutritional supplements and snack bars.

Varieties: Corn glucose powder

Packing: Multi-layer paper bag

Origin: China

16144	Corn glucose powder DE97	25 kg	CN

HONEY

✓ **ORGANIC**
✓ **CLEAN-LABEL SWEETENER**
✓ **FLORAL FLAVOUR**

Our organic honey melange is a transparent, multifloral liquid honey sourced from various organic beehives and carefully prepared without additives or modifications. Preserving its natural character and distinctive floral flavour, it offers a clean-label sweetening solution for a variety of food and beverage formulations.

Varieties: Honey melange

Packing: Bucket

Origin: EU / NON-EU

20160	Honey melange	14 kg	EU/NON-EU

DEXTRIN

- ✓ ORGANIC
- ✓ NEUTRAL TASTE
- ✓ IMPROVES DISPERSIBILITY

Dextrins are versatile carbohydrate ingredients derived from starch and widely used to improve texture, stability, and handling in food applications. They help create consistent formulations and can support the distribution of flavors and other ingredients throughout a product.

Our tapioca maltodextrin is produced from organic tapioca starch and offers low sweetness, a neutral taste and excellent solubility. It is commonly used in powdered food blends, seasonings, bakery products, and confectionary. It contributes to a smooth mouthfeel and helps transform liquid ingredients into easy-to-handle powders.

Varieties: Tapioca maltodextrin DE10

Packing: Multi-layer paper bag

Origin: Vietnam

16141	Tapioca maltodextrine DE10	25 kg	VN

GOOD TO KNOW

Tapioca maltodextrin is not primarily used as a sweetener. Instead, it is valued for its ability to add body, texture and solids to formulations. As a versatile carbohydrate ingredient often used alongside sugars and sweeteners, it fits naturally within our Sugars & Sweeteners range.

DEXTROSE MONOHYDRATE

- ✓ ORGANIC
- ✓ FAST ENERGY SOURCE
- ✓ EXCELLENT SOLUBILITY

Our organic dextrose monohydrate is a sugar derived from corn starch. It delivers a clean, sweet taste and is valued for its quick energy release. Thanks to its excellent solubility, it is widely used in food, beverage and nutritional applications where sweetness, energy and process efficiency are required.

Varieties: Dextrose monohydrate

Packing: Multi-layer paper bag

Origin: China

16147	Dextrose monohydrate	25 kg	CN
